SOURCE DATASHEET PENDING

HWDSD50HCS330U
HUIWEI TECHNOLOGY
Document preparation cover - not an electrical specification

Supplier correspondence dated 2026-10-21 describes a 3.3kV / 50A diode and states that its datasheet is still being prepared. No controlled datasheet was available for this edition.

Electrical limits, test conditions, thermal data, curves, package dimensions, order code, reliability, availability and final marking remain unconfirmed.

No electrical tables or performance curves have been inferred from other devices. Replace this cover only after the source datasheet is received and reviewed.
